Guide Sheet To Prepare Your Kitchen

Visit your local Home Depot, Lowes or other home supply store, or go on-line at www.Myknobs.com for help with your selection when ordering new hardware.

We recommend that you purchase the knobs/handles **three** weeks prior to your start date to avoid delays in ordering and shipping.

Hardware can be installed for a fee if it arrives after the completion of your kitchen due to late ordering.

One to two weeks prior to your refinishing date, we will remove your cabinet doors for processing. *Not applicable when new doors are ordered.*

Cabinets must be completely emptied and counter tops cleared prior to the date of your job.

The icemaker must be turned off or even disconnected prior, so that your refrigerator can be moved safely. We can do that if you do not know how.

Please inform us of: Attic fans
Central air/heat
Person[s] with special needs
Pets
